

A warm welcome

Prof. Dr. Andreas Wilms
Vice President Academic and International Affairs

THB at a glance

- Founded in 1992
- Approx. 3000 students, with more than 10% international students from about 60 countries
- More than 60 professors
- 3 departments: Business and Management, Informatics and Media, Engineering

Department of Business and Management

Study programmes

- Business Administration (B.Sc./B.A./M.Sc.)
- Business Informatics (B.Sc./M.Sc.)
- Security Management (M.Sc.)
- Technology and Innovation Management (M.Sc.)

Department of Business and Management

Research focus on:

- Cooperative Systems (E-Government...)
- Security Management
- Technology and Innovation Management
- Entrepreneurship

Department of Informatics and Media

Study programmes

- Medical Informatics (B.Sc.)
- Applied Computer Science (B.Sc.)
- Informatics (B.Sc./M.Sc.)
- Digital Media (M.Sc.)
- Computer Science with Media Applications (B.Sc./M.Sc.)

Department of Informatics and Media

Research focus on:

- Digital Media
- Media Informatics (use of online tools)
- Medical Informatics (interface with hospitals)
- Security (Cryptography)
- Cloud Computing

Department of Engineering

Study programmes (B. Eng.)

- Mechanical Engineering
- Engineering Science
- Industrial Engineering
- Ophthalmic Optics and Optical Technologies

Study programmes (M. Eng.)

- Energy Efficiency in Technical Systems
- Mechanical Engineering
- Photonics (in cooperation with Wildau Technical University of Applied Sciences)

Department of Engineering

Research focus on:

- Energy and resources efficiency
- Sustainable Technologies
- Robust Engineering
- Safety

Our Strengths

- High quality in applied teaching and learning (very good positions in German rankings)
- Individual counselling and small study groups
- Strong research; links to research clusters in Berlin/Brandenburg
- Family friendly
- Integration and counselling offers for international students

International activities

- Student and staff exchange with 40 partner universities in the European Erasmus programme
- Further cooperation with universities outside Europe, i.e. in Jordan, Namibia, Ukraine, Mexico, Taiwan etc.
- German representative of the PRIME-network
- International projects such as the International Media camp and the German-Polish summer school for microsystems technology
- Internationally oriented study programmes (Technology and Innovation Management, Applied Computer Science)
